Start of Block: Scale questions

E54.1 In this survey, we use scale questions. They allow you to indicate which of two opposing sides you lean toward and how strongly you do so. For example, on a scale from 0 to 10, options 0 or 10 denote strong agreement with one side or the other, while moving more toward the middle of the scale implies weaker agreement with one side or the other. The exact middle suggests indifference or equality between the two sides. To demonstrate that you understand this, please use the following scale to indicate how clear you found these instructions.

- 0: Very unclear (1)
- 1 (2)
- 2 (3)
- 3 (4)
- 4 (5)
- 5 (6)
- 6 (7)
- 7 (8)
- 8 (9)
- 9 (10)
- 10: Very clear (11)

E54.1 Dalam survei ini, kami menggunakan pertanyaan berskala. Pertanyaan-pertanyaan berikut memungkinkan Anda untuk menunjukkan tingkat kesetujuan Anda terhadap 2 pernyataan yang berlawanan. Misalnya, dari skala 0 sampai 10, opsi 0 atau 10 melambangkan persetujuan yang kuat terhadap satu sisi atau sisi lainnya, sedangkan semakin ke tengah menunjukkan persetujuan yang lebih lemah dengan kedua sisi. Tepat di tengah menunjukkan kesamaan pendapat antara kedua sisi. Untuk menunjukkan bahwa Anda telah mengerti, mohon gunakan skala berikut untuk menunjukkan seberapa jelas Anda mengerti instruksi ini.

0: Sangat tidak jelas (1)

Start of Block: Slider questions

E235.1 In this survey, we use slider questions. They allow you to indicate which of two opposing sides you lean toward and how strongly you do so. For example, on a scale from 0 to 100, options 0 or 100 denote strong agreement with one side or the other, while moving more toward the middle of the scale implies weaker agreement with one side or the other. The exact middle suggests indifference or equality between the two sides. In order to provide an answer, it is not enough to leave the slider where it is; you must click on the slider at least once or pull it to where you want it. To demonstrate that you understand this, please use the following scale to indicate how clear you found these instructions.

	Very unclear		Very clear
	0		100
()			

E235.1 Dalam survei ini, kami menggunakan pertanyaan slider. Pertanyaan-pertanyaan berikut memungkinkan Anda untuk menunjukkan tingkat kesetujuan Anda terhadap 2 pernyataan yang berlawanan. Misalnya, pada skala dari 0 sampai 100, opsi 0 atau 100 melambungkan persetujuan yang kuat terhadap satu sisi atau sisi lainnya, sedangkan semakin ke tengah menunjukkan persetujuan yang lebih lemah dengan kedua sisi. Tepat di tengah menunjukkan kesamaan pendapat antara kedua sisi. Untuk menjawab, Anda harus klik di tombol skala setidaknya satu kali atau tarik tombol ke arah skala yang Anda inginkan. Untuk menunjukkan bahwa Anda telah mengerti, mohon gunakan skala berikut untuk menunjukkan seberapa jelas Anda mengerti instruksi ini.

	Sangat tidak jelas		Sangat jelas

E285.1 This part of the survey included experiments with inaccurate information. The alleged statements by the foreign ministry of Indonesia, the United Nations, the World Bank, and/or the World Health Organization, as well as supposed citizen protests and institutional reforms – which we presented to some randomly selected respondents – were fictional. We intend to test if they have any effects on people’s perceptions of the legitimacy of international organizations.

Deception in experiments is a common scientific method, for example, the use of placebos in medical trials. Nonetheless, we would like to apologize for any inconvenience caused. Again, please rest assured that your responses remain entirely anonymous.

E285.1 Bagian survei ini mencakup eksperimen menggunakan informasi yang direkayasa. Pernyataan mengenai Kementerian Luar Negeri (Kemenlu) Indonesia, Perserikatan Bangsa-Bangsa, Bank Dunia, dan/atau World Health Organization (WHO), juga protes masyarakat dan reformasi institusi yang ditunjukkan kepada beberapa responden secara acak, semua bersifat fiktif. Kami bertujuan untuk menguji apakah hal tersebut dapat mempengaruhi persepsi orang-orang mengenai legitimasi organisasi-organisasi internasional.

Perlakuan pura-pura dalam eksperimen adalah metode ilmu ilmiah yang umum, contohnya seperti penggunaan plasebo dalam uji klinis. Bagaimanapun juga, kami mohon maaf untuk ketidaknyamanan ini. Sekali lagi, tetap ingat bahwa tanggapan Anda akan tetap terjaga anonimitasnya.

E286.2

There is a debate about how democratic (or not) international organizations like the UN, World Bank, and WHO are. By “democratic” we mean representing people through free and fair elections or other ways of citizen participation. Some people find international organizations completely democratic, while others consider them not democratic at all.

Now please answer the following questions:

E286.2 Adanya perdebatan tentang seberapa demokratis atau tidaknya organisasi-organisasi internasional seperti PBB, Bank Dunia, dan WHO. Dengan “demokratis”, maksud kami adalah representasi masyarakat melalui pemilihan yang bebas dan adil, atau bentuk partisipasi masyarakat lainnya. Beberapa orang menganggap organisasi internasional sepenuhnya demokratis, sedangkan yang lainnya menganggap organisasi internasional tidak demokratis sama sekali.
